## OBSERVATION SHEET FOR THE SAFETY ASSESSMENT IN GYMNASTICS

### **Identification Information:**

- Event Name: Bucharest Gym for All Festival
- Date and Location: October 21-22, 2023, Metropolitan Circus Bucharest
- Evaluator's Name: Steliana Curelea

### **Evaluation of Coaches' Behavior:**

- Coaches give attention to the athletes, closely supervise, encourage, and provide support.

### **Evaluation of Accommodation/Competition Conditions:**

The accommodation conditions complied with hygiene and sanitation standards. At the competition venue, sanitary facilities were clean, well-ventilated, and regularly inspected. Initially, there was a lack of ventilation in the corridors and the training/accommodation area, which was resolved with the assistance of Circus Metropolitan's auxiliary staff.

### **Evaluation of meal conditions:**

Not applicable. Athletes had their meals outside the competition space.

### **Evaluation of Competition Conditions:**

- Is the competition venue clean and safe? Yes.
- Is the protective equipment in good condition and used appropriately? Yes.
- Is there sufficient supervision staff to ensure children's safety? Yes. The competition received assistance from the FRG staff and volunteers.
- Is bottled water or water dispensers available to athletes? Yes. Athletes had access to several locations with bottled water.

### **Evaluation of Location-Related Injury Hazards in the Competition arena:**

- Are there evident hazards such as slippery surfaces, uneven surfaces, or obstacles around the competition area? No. Objects in the waiting/accommodation/locker room areas were secured or properly monitored.

- Is there enough supervision staff to prevent accidents or respond quickly if they occur? Yes.
- Are there ambulances and medical personnel for first aid? Yes. The event had a medical team consisting of a doctor and a nurse.
- Are all safety rules and procedures followed by organizers, officials, and participants? Yes. Athletes and coaches followed the organizers' competition instructions and adhered to safety standards.

**Additional Comments and Recommendations:**

There are no further comments.
